ACKNOWLEDGEMENTS

This thesis would not have been possible without the help and support of many individuals. I would especially like to thank the following people:

My first reader, Dr. Raghda El Essawi for her thoughtful guidance and valuable support. I greatly benefited from her keen scientific insight and her ability to put complex ideas into simple terms. I highly appreciate her patience for clearing my conflict of thoughts and her treasured feedback.

Dr. Dalal Abouel Seoud and Dr. Mona Hassan, my second and third readers, for their encouragement and constant readiness to be there for me all the time. My great appreciation for their enlightening suggestions which let my defense be an enjoyable moment.

All faculty of the Arabic Language Instruction Department at the American University in Cairo who so willingly participated in the study, giving up so much of their time to answer my questions and discuss matters related to my research. I thank them for their patience and willingness to welcome me in their classrooms.

All staff in the Applied Linguistics Department and the Arabic Language Instruction Department at the American University in Cairo for their hospitality and contribution that helped me facing research related difficulties.

My friends and colleagues within the AUC community who used to cheer me up in stressful times throughout my long thesis journey.

Ms. Karaz-Mona Hamdy (English Language Instruction Department at the American University in Cairo) for providing needed assistance with editing tasks as a certified editor.

My beloved family: My husband, Nabil Maamoun, and my adorable teen-age children, Farida and Adham, for putting on hold their domestic life stability while I was pursuing a dream; for pushing me ahead, no matter how costly was it for them, and for believing in my capabilities to accomplish my goals.

ABSTRACT

This study examined the beliefs of teachers of Arabic to speakers of other languages (TASOL) about class openings and the interplay between such beliefs and teacher's in-class practices regarding class opening as the first introductory part of a lesson. A questionnaire of three parts was given to two groups of TASOL: the first group comprised 63 randomly selected teachers, to provide their beliefs in general about class opening. Observations and interviews were administered to the second group of teachers (30 observations and 10 interviews were conducted) to highlight the mentioned interplay. The investigated beliefs were inspired by similar studies and TBQ (Teacher Belief Questionnaire). The observation process involved using observation notes and an observation checklist by the researcher. Overall, the results of this study indicate that class opening beliefs of most participants suggest a realization of the importance of this part of the lesson. However, it also highlights that most teachers give priority to cognitive practices at the expense of affective ones recommended by the field. The study also sheds light on the convergence between teacher beliefs and practices as well the level of divergence, calling into question the widely held assumption that the latter is driven by the former.

Index Terms—teachers' beliefs, lesson planning, class opening practice, contextual factors.

TABLE OF CONETNETS

Chapter One: INTRODUCTION

1.1 Statement of Problem and Rationale of Study-----	2
1.2 Research Questions-----	4
1.3 Delimitations-----	4
1.4 Key Definitions	
1.4.1 Teaching Beliefs-----	4
1.4.2 Class Opening-----	5
1.5 Operational Definitions	
1.5.1 Teaching Beliefs-----	5
1.5.2 Class Opening-----	6
1.6 Abbreviations-----	6

Chapter Two: LITERATURE REVIEW

2.1 Teaching Beliefs	
2.1.1 'Beliefs' as a term-----	7
2.1.2 Teaching Beliefs Definition-----	8
2.1.3 Beliefs System-----	8
2.1.4 The Relationship between Teacher Beliefs and Practices-----	9
2.1.5 Explanations of the Mismatch between Teacher Beliefs and Practices-	11
2.2 Class Opening	
2.2.1 The Purposes of Class Opening-----	13

2.3 Summary -----	19
-------------------	----

Chapter Three: METHODOLOGY

3.1 Research Design -----	21
3.2 Sampling -----	23
3.3 Instruments -----	24
3.4 Ethical Standards -----	30
3.5 Data Collection	
3.5.1 The Questionnaire -----	31
3.5.2 Class Observations -----	31
3.5.3 Semi-structured Interviews-----	33
3.6 Data Analysis	
3.6.1 Quantitative Data -----	34
3.6.2 Qualitative Data -----	34

Chapter Four: STUDY RESULTS

4.1 Quantitative Data Analysis-----	36
4.2 Qualitative Data Analysis-----	47
4.2.1 Important Remarks on Pre-observation and Class Observation Notes-----	60

Chapter Five: ANALYSIS AND DISCUSSION

5.1 First Research Question-----	62
5.2 Second Research Question-----	67
5.3 Third Research Question -----	78
5.4 Conclusion-----	99

5.5 Limitations of the Study-----	100
5.6 Pedagogical Suggestions-----	101
5.7 Suggestions for Further Research-----	102
LIST OF REFERENCES-----	103
APPENDICES	
APPENDIX A -----	112
APEENDIX B -----	121
APPENDIX C -----	122
APPENDIX D -----	123
APPENDIX E -----	125

List of Tables and Graphs

Chapter Four: STUDY RESULTS

Table 4.1 Teachers' beliefs towards class opening (extracted from Part I in the questionnaire)-----	37
Table 4.2 Teachers' practices addressing various purposes of the opening (extracted from Part II A in the questionnaire)-----	40
Table 4.3 The frequency of contextual factors influence on teachers' practices of the opening (extracted from Part III in the questionnaire)-----	45
Table 4.4 Observation Checklist-----	57

Chapter Five: ANALYSIS AND DISCUSSION

Table 5.1 Quantitative data on beliefs towards class opening (extracted from Part I of the questionnaire)-----	62
Table 5.2 Quantitative data on beliefs about planning/skipping opening (extracted Part I of the questionnaire) -----	64
Table 5.3 Quantitative data on beliefs towards the importance of the opening purposes (extracted Part I of the questionnaire)-----	68
Table 5.4 Quantitative data on the most frequently used practices by teachers (in percentages) to address the various purposes of their class openings (extracted from Part II in the questionnaire)-----	71
Table 5.5 Common activities of teachers following an integrated purpose in the opening (mainly cognitive and affective) as well as of teachers following one of these two purposes -----	74
