Available at: http://www.jstor.org/stable/3693558

Session 2 (Friday, February 17th 14:00 – 15:30 / 15:45 – 17:15)

Topics: Negotiations Techniques: Simulation

Simulation Model on Cyber Security Attacks

Students are expected to choose their roles on Monday 13th February and provide their choices to the TA.

During the simulation, the students will be divided into three teams, one team is supporting National Scenarios to counter Cyber Security Attacks (National Team), the second team is supporting Regional Scenarios to counter Cyber Security Attacks (The Regional Team), the third team is supporting International Scenarios to counter Cyber Security Attacks (International Team)

Three students should volunteer to chair. Meanwhile, the rest of the students will choose a side they want to support and contribute to during the debate session.
